

Dear Benjie,

I'm pleased to let you know that the medical accuracy review has been completed for the REAL Essentials curriculum. FYSB strives to ensure that adolescents, along with all recipients of public health information receive reliable and accurate information to best equip them to make healthy decisions for their lives.

Additionally, we want to ensure that information presented is medically accurate and appropriate for the targeted age groups. We hope that you found this process resourceful. **The curriculum meets the definition of medically accurate as submitted and your program is approved to proceed with implementation.**

If you have any questions, please let me know. Thank you and have a wonderful day.

Best,

***Mona-Lee Belizaire, MSW, MPH***
